Assembly

Table Frame

1 Screw in x4 leg brackets on long table frame edges according to the holes using x8 cross head screws.	2 Flip the frame so all four sides are level with the surface. Make sure the holes along the frame are facing upwards.
3 Insert x4 cross head screws into leg brackets to attach short table frames.	4 Insert x2 wood pins into holes.

Attaching the tabletop

5 Flip over the frame. Put the tabletop (holes facing up) underneath the frame.	6 Insert x16 long cross head screws into all holes of the frame to attach the tabletop.
--	--

Table legs

7 Insert x4 metal table leg joints in each leg, with holes facing inward towards the corner.	8 Insert x2 wood screw mounts in each table leg, matching the holes in the metal table leg joints.
9 Insert x4 metal joint screws in the appropriate holes on each table leg. Note: there are three holes. Insert into the smallest hole on each leg.	

Attaching the table legs to the table frame

10 On each leg bracket, screw the washer, followed by the nut using the screw nut allen key tool. Make sure table legs are flush with the tabletop edges. Note: Only screw into two leg brackets on the same side other leg brackets will be done in later steps.
--

Table leg bar

11 Insert x2 metal joint screws in the centre of each short table leg bar, in the smallest hole.	12 Insert x4 wood leg brackets into the bottom two holes on each side of the long table leg bar. Note: Darker side of the long and short table bars should be facing down.
13 With help of another person, attach assembled long and short table bars to the two table legs.	

Attach the remaining legs

14 With help of another person, attach the two table legs to the table frame. Note: Make sure the wood leg brackets all align.	15 On each leg bracket, screw the washer, followed by the nut using the screw nut allen key tool. Make sure table legs are flush with the tabletop edges.
---	--

Finishing steps

16 Insert x4 metal head cross nuts to each leg and tighten with screwdriver.	17 Insert anti-scratch floor pads to each table leg. Flip the table over to the right side up with assistance.
